Our program is designed to provide elite classical training that prepares students to achieve their goals as teachers, performers, and creative artists in the field of dance.

All students are required to enroll in at least one Ballet class, as it provides the essential foundation and technical development needed to access all genres of dance.

Culture & Performance

Cultural representation is what sets the TMJ School of Dance apart in Cenla.

Our training is rooted in cultural identity and artistic expression, offering students a meaningful experience that builds confidence both on and off the stage.
